

Instant Roof

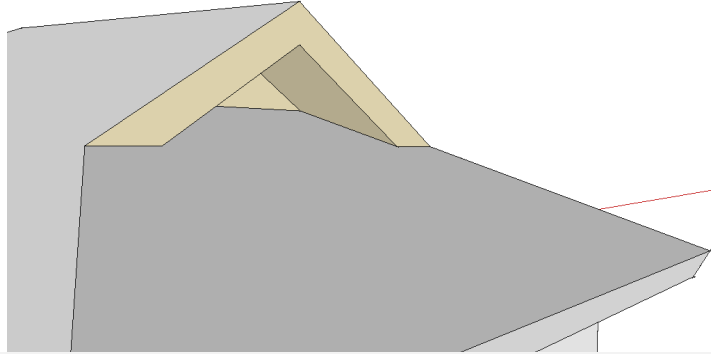

Parameters Add Dutch Gables to Hip Roofs

Dutch Gable Styles are collections of parameter settings. They are named and saved in the drawing file.

In each of the examples, a different setting or group of settings is chosen. The corresponding result is shown on the right.

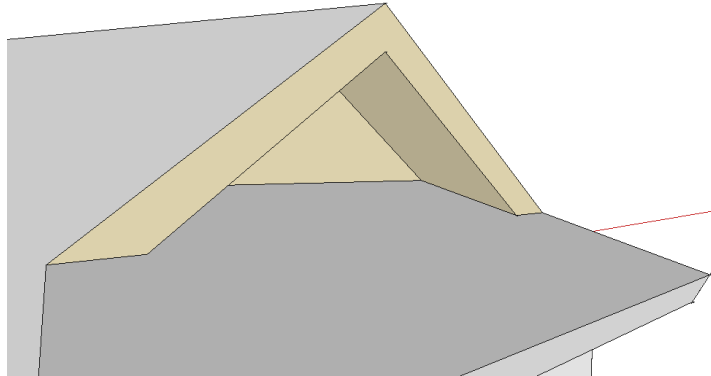

Ridge Length 5'

Ridge Length	<input type="text" value="5'"/>
Eave Width	<input type="text" value="1' 6''"/>
Fascia Height	<input type="text" value="8''"/>
Add Trim?	<input type="text" value="no"/>
Trim Width	<input type="text" value="1''"/>
Trim Height	<input type="text" value="2''"/>
Eave Type	<input type="text" value="Boxed-In"/>

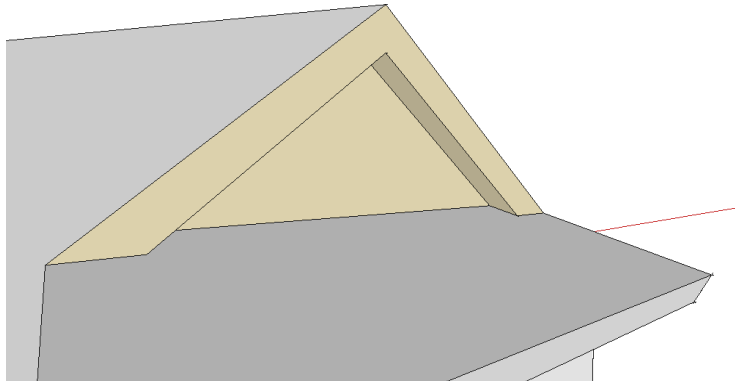

Ridge Length 7' Eave Width 1'6"

Ridge Length	<input type="text" value="7'"/>
Eave Width	<input type="text" value="1'6''"/>
Fascia Height	<input type="text" value="8''"/>
Add Trim?	<input type="text" value="no"/>
