Road Examples Model Download, 1.4 MB

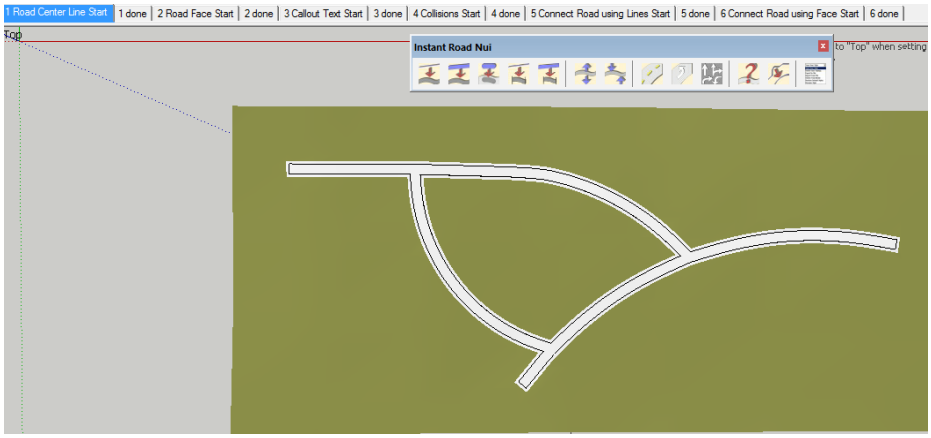

Open the model in Sketchup and click through the Scenes to see each road example setup and completion. No parameter setting chanes are necessary for trying these examples. *There are text instructions in the model for each example.*

Example 1, Road from Centerline. *Click the first scene, "**1 Road Center Line Start**", select the terrain mesh and road alignment curves group, click the Road from Center Line icon, and click Make Road.*

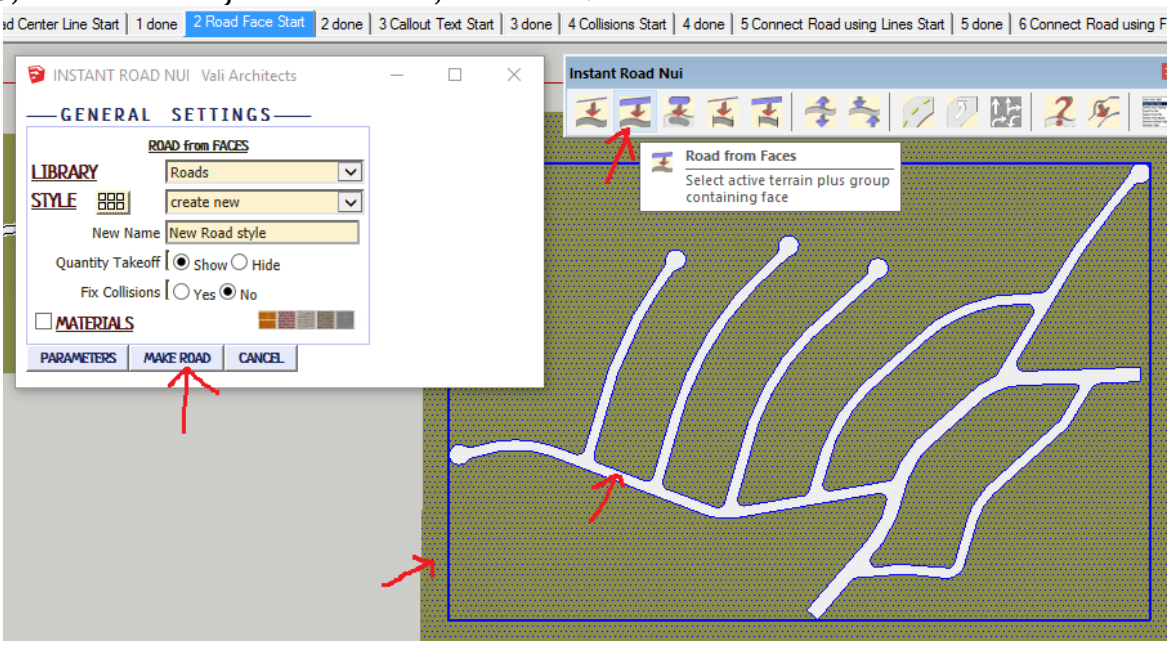

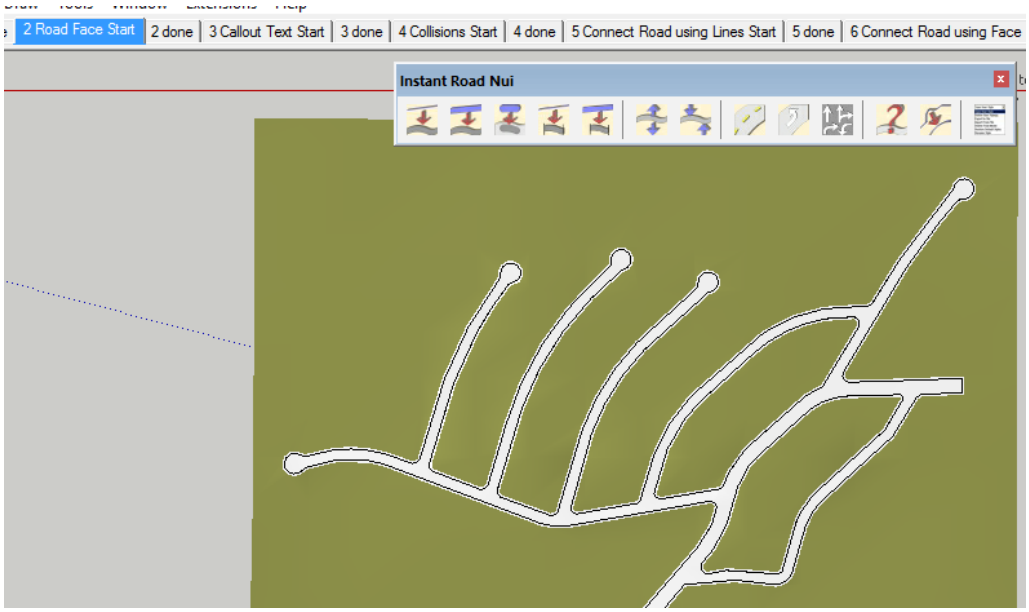

Here is the result. It should match the result shown in the '1 done' scene.

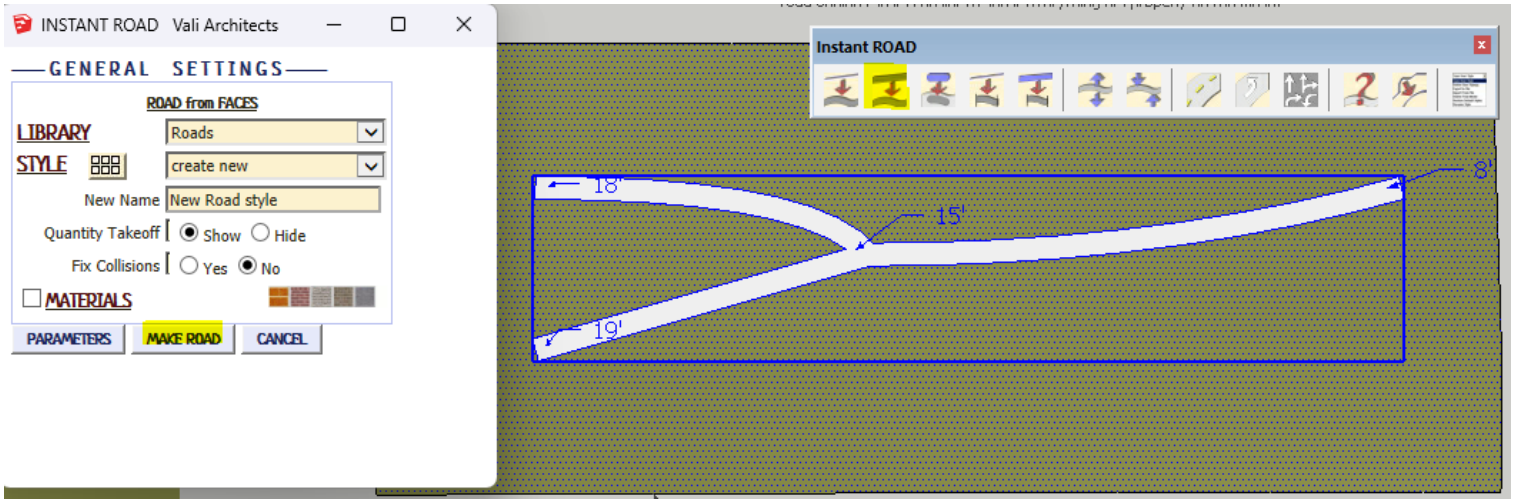

Example 2, Road from Face. *Click the scene, "**2 Road Face Start**", select the terrain mesh and road outline group, click the Road from Faces icon, and click Make Road.*

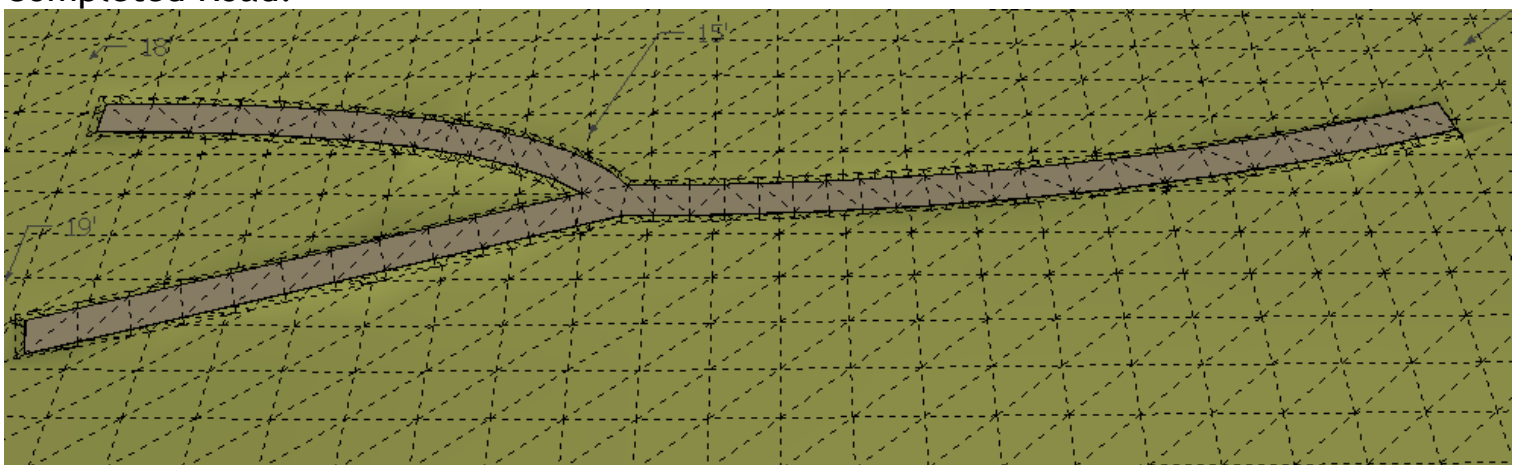

Completed Road. *It may take several minutes, but your road will look like this:*

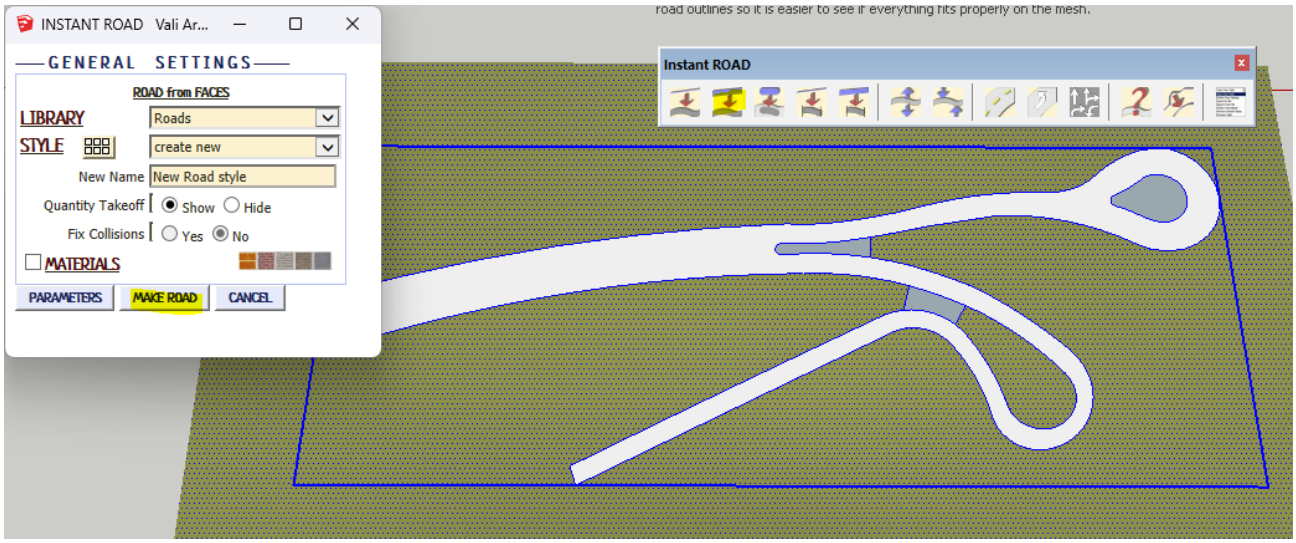

Example 3, Callout Text. *Click the scene, "**3 Callout Text Face Start**", select the terrain mesh and road outline group, click the Road from Faces icon, and click Make Road.*

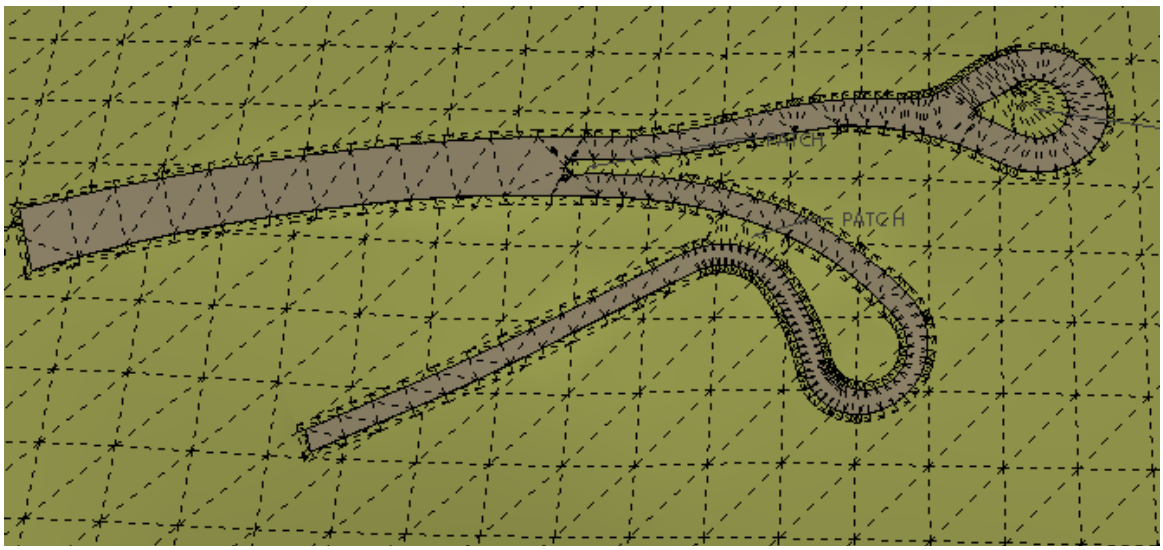

Completed Road.

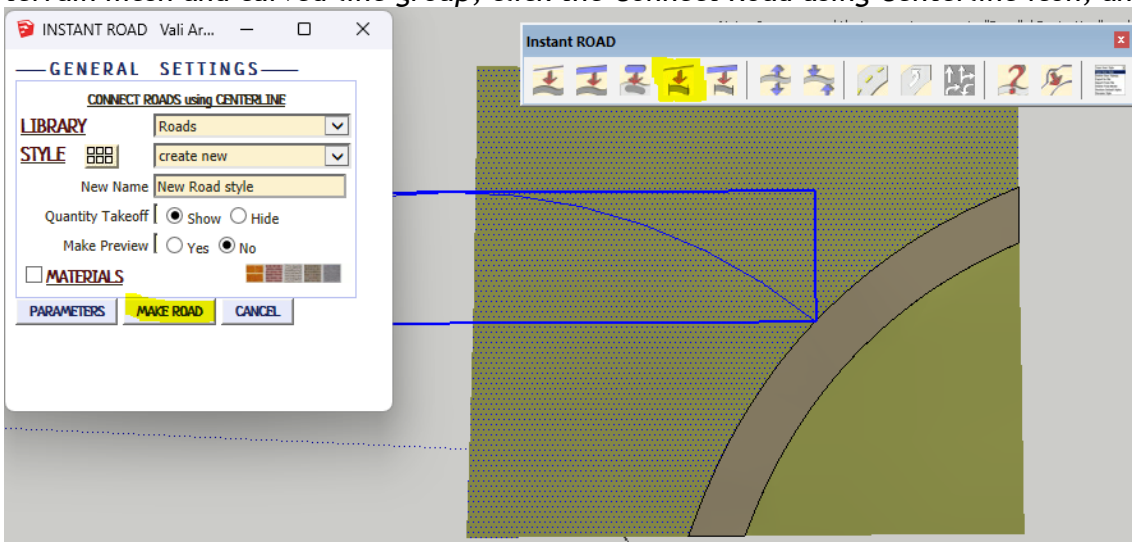

Example 4, Road from Faces Tight Spaces. *Click the scene, "**4 Road Faces Tight Spaces Start**", select the terrain mesh and road outline group, click the Road from Faces icon, and click Make Road.*

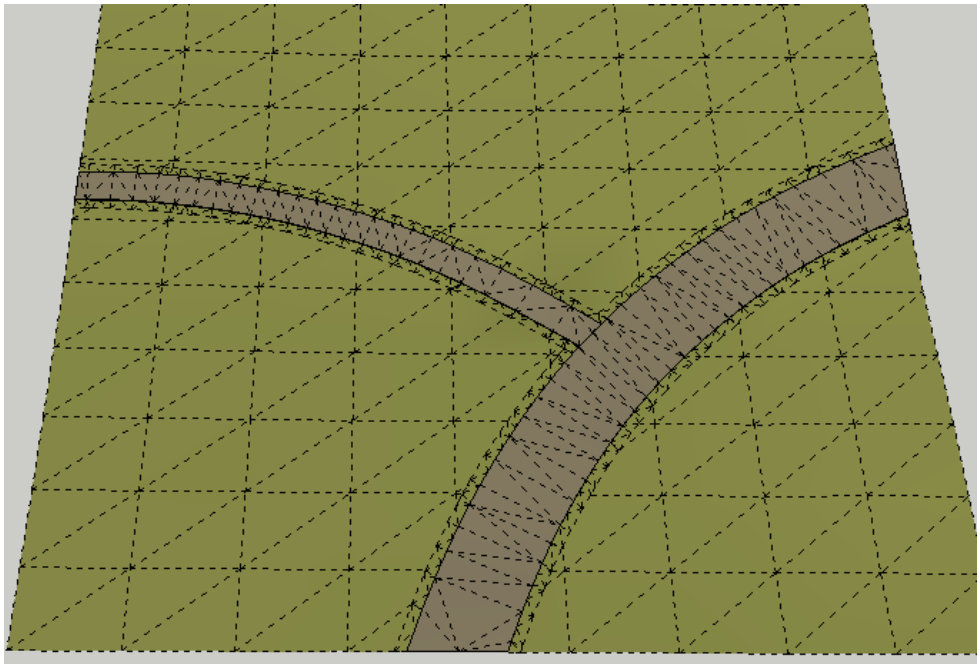

Completed Road.

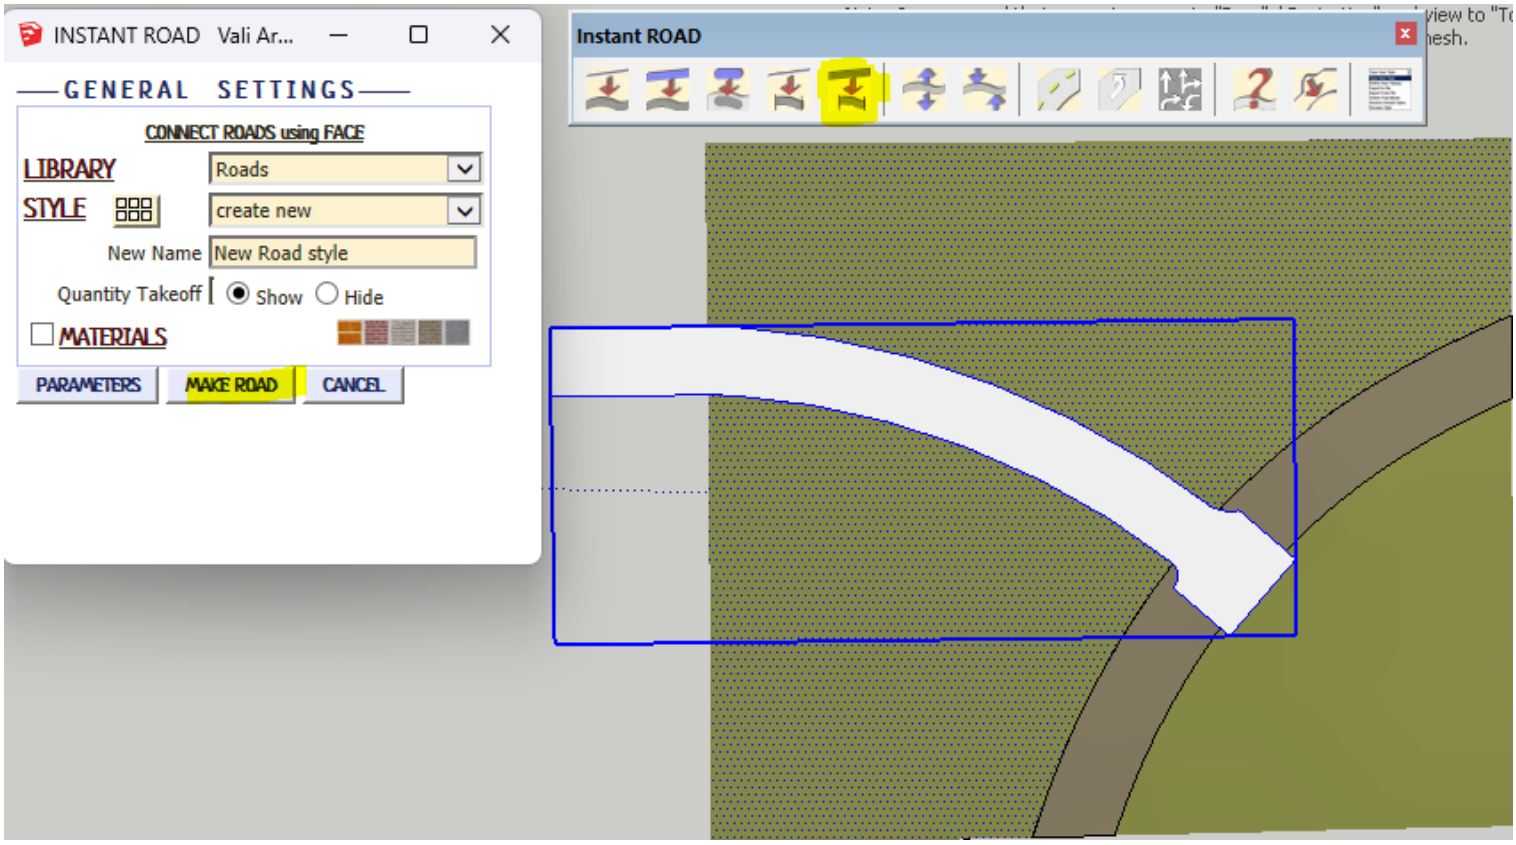

Example 5, Connect Road using Lines. *Click the scene, "**5 Connect roads using lines Start**", select the terrain mesh and curved line group, click the Connect Road using Centerline icon, and click Make Road.*

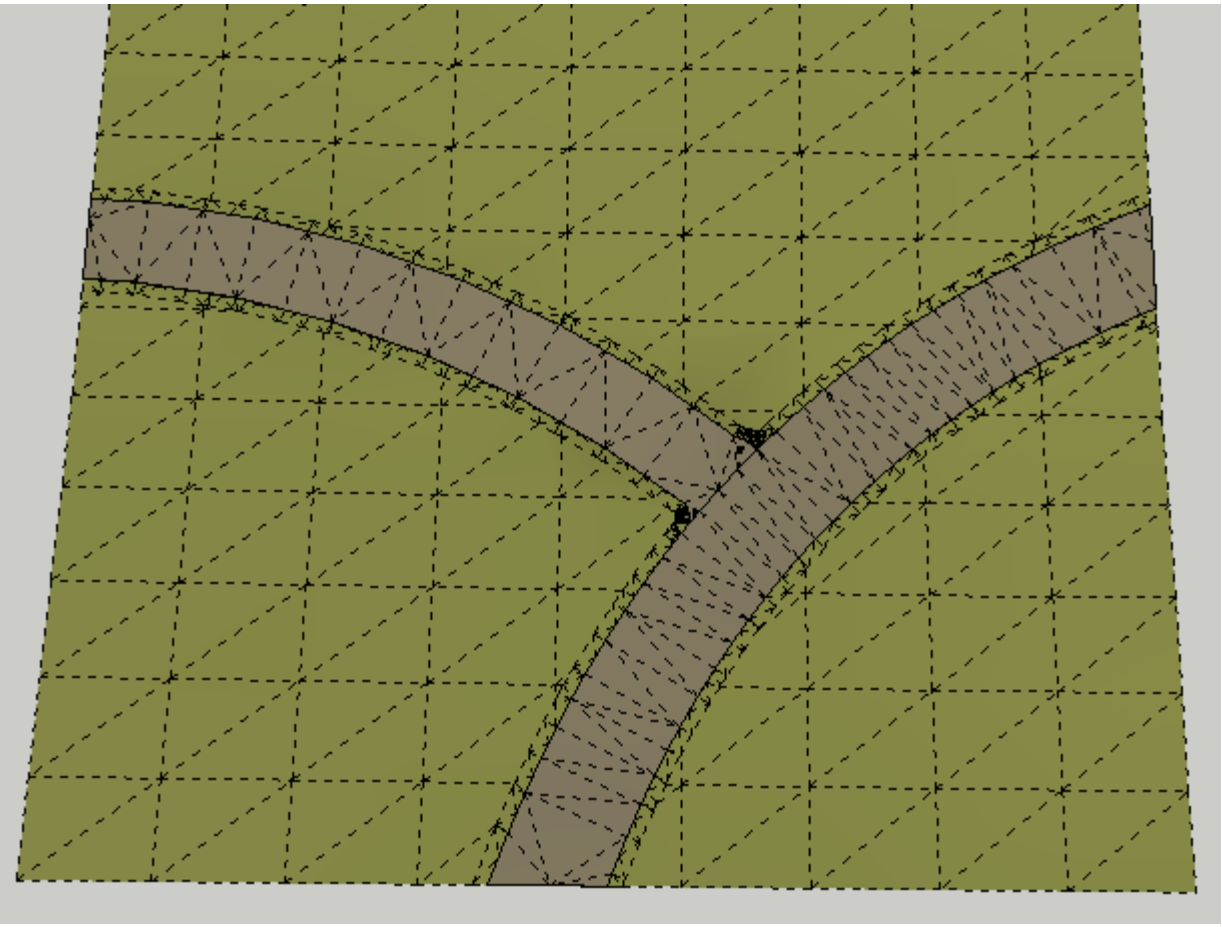

Completed Road.

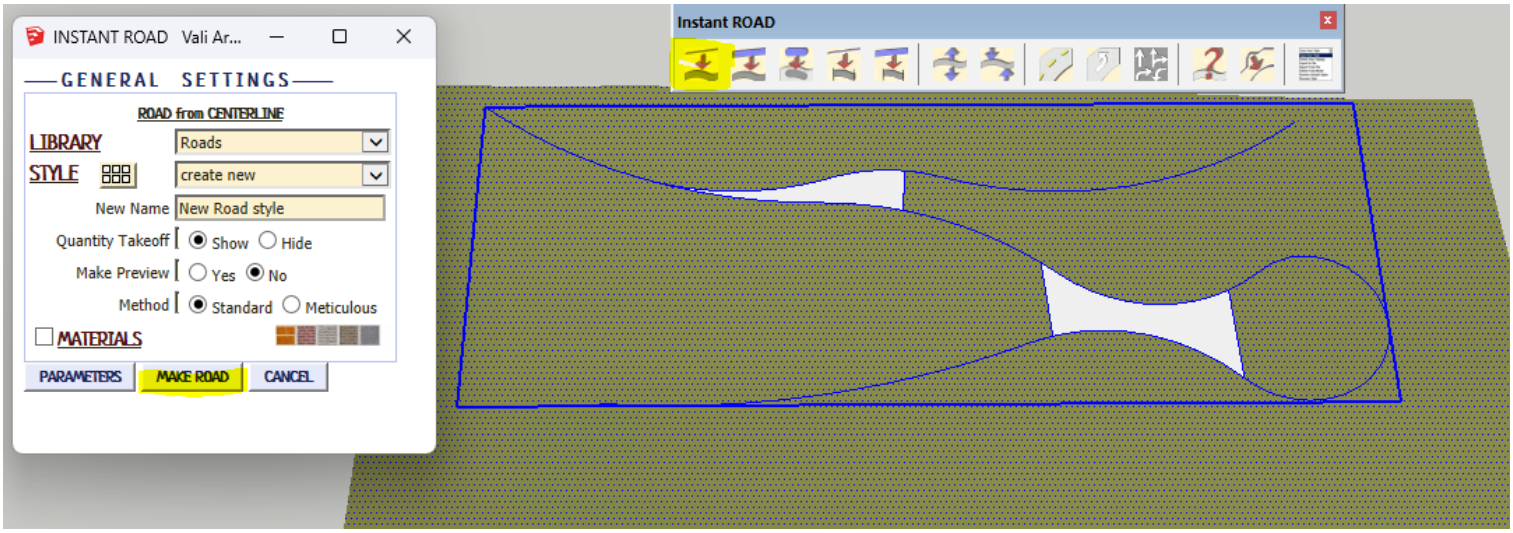

Example 6, Connect Road using Face. *Click the scene, "**6 Connect roads using Face Start**", select the terrain mesh and curved line group, click the Connect Road using Centerline icon, and click Make Road.*

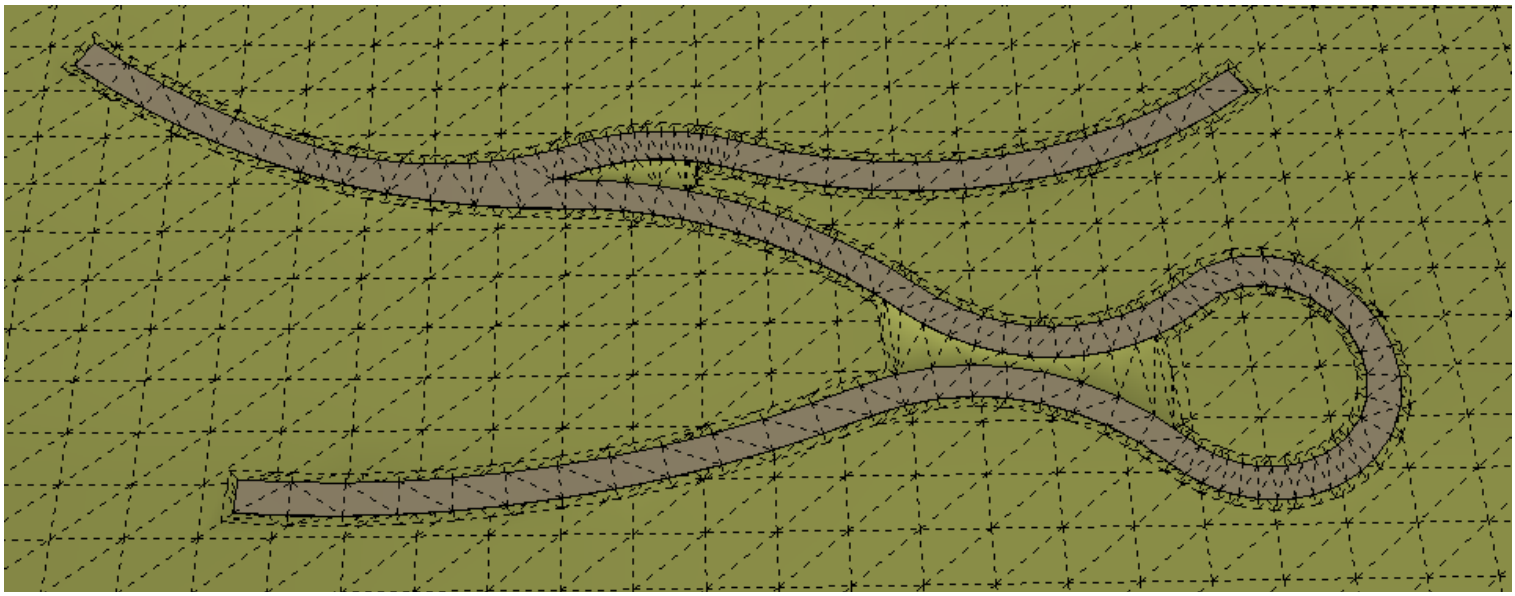

Completed Road.

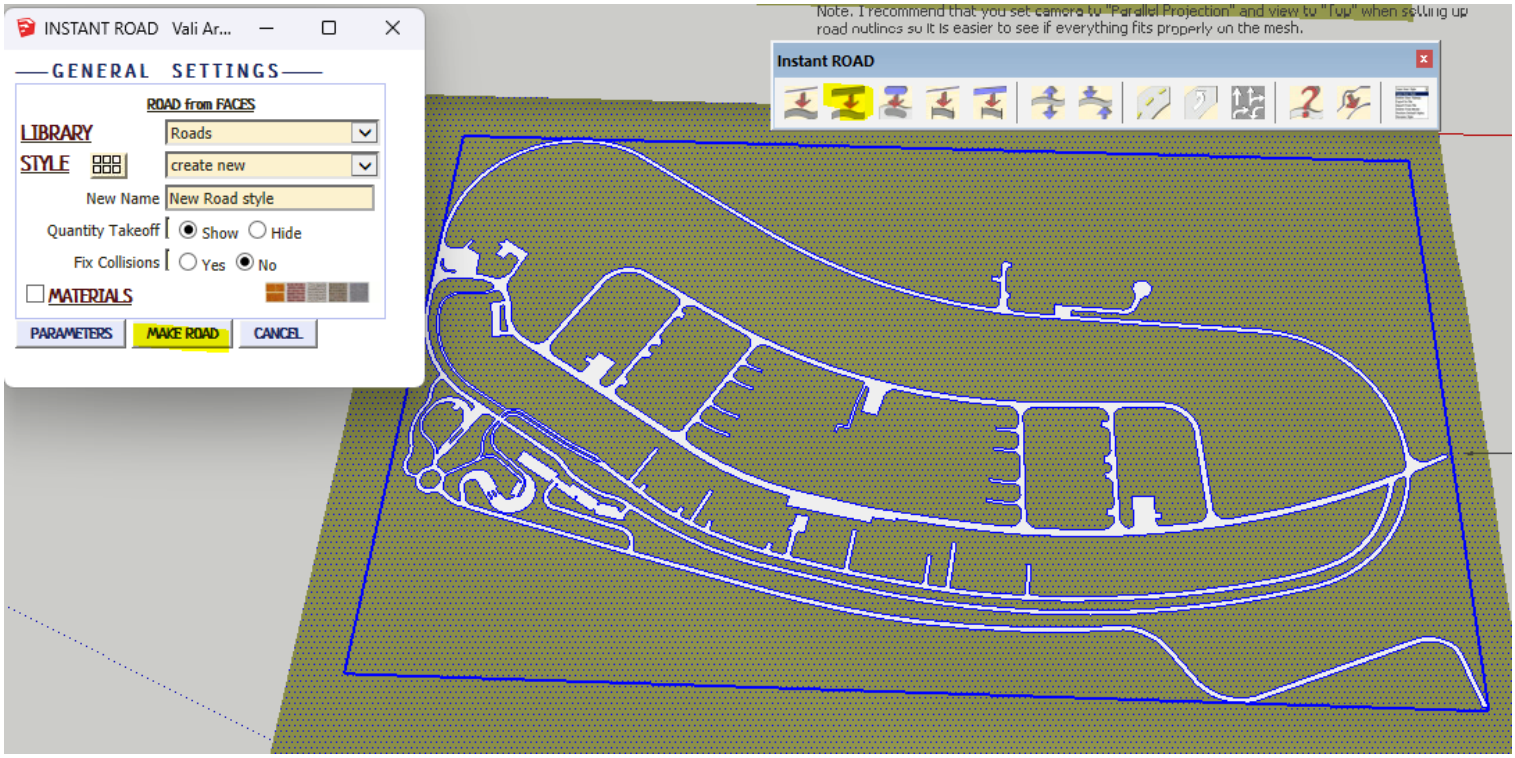

Example 7, Road from Centerline Tight Spaces. *Click the scene, "**7 Road Centerline Tight Spaces Start**", select the terrain mesh and road outline group, click the Road from Faces icon, and click Make Road.*

Completed Road.

Example 8, Large Road. *CThis model took over 10 minutes on my machine, so only try it if you have some time. Click the scene, "**8 Large Road Start**", select the terrain mesh and road outline group, click the Road from Faces icon, and click Make Road.*

Completed Road.
